## **Chapman Lenny Mini**

### **PRODUCT SPECIFICATION SHEET**

Our most popular fixed crane arm, ideal for use on location or in the studio where it's small and light enough to be mounted on: Pontoons & small Boats, roof-tops, our Tracking Vehicles or our Olympian Mobile Platforms. The Lenny Mini was originally designed as a light-weight crane arm for use with Dollies and Pedestals. The multi-section design of the Lenny Mini Camera Crane can be configured in different lengths from as little as 2 feet to over 25 feet. Over 50 different length configurations are possible, making the Lenny Mini a very versatile fixed arm crane for a multitude of uses. The arm is designed to carry remote rigs including 3D cameras and existing Film/Digital & TV Cameras.

Features of the Lenny Mini Crane Arm:

- The perfect crane arm for roof tops or limited access locations where weight is a factor.
- Over 50 size/length configurations possible in a build.
- Easy to transport thanks to component design & storage.
- The Crane can be assembled by just one or two people (we supply the Lenny Mini with a qualified technician).
- Leveling centre post for use on slopes or uneven ground.
- Slim design is perfect for small or medium size studio work on Dollies or Pedestals.
- Smooth well balanced crane arm for accurate movement on all axis.
- It can be mounted on our Raptor, Maverick or Ford Tracking Vehicles all equipped with automatic self-leveling centre posts, ideal for tracking shots with a fixed length arm.
- Light enough for use on small boats & pontoons (see photos).
- Compatible with our Remote Heads and Stabilised Heads
- Designed to work with many camera packages from 3D rigs to existing Film & Digital Cameras (max recommended payload is 204 lbs). Cameras can be over slung or underslung in a pre-configured position.

NOTE: Not suitable for ride on/carrying an operator. Please see the Lenny II & III for ride on, full height camera cranes.

To arrange a demonstration of the Lenny Mini, come and see us at our new UK Office, call us today or email [grip@chapmanleonard.com](mailto:grip@chapmanleonard.com)
